

HARI BASHYAL

FULL STACK DEVELOPER & AUTOMATION ENGINEER

Palpa, Nepal | +977 986-7341545 | hbashyal878@gmail.com
[Portfolio: haribashyal.com.np](https://haribashyal.com.np) | [GitHub: Bashyalhari583](https://github.com/Bashyalhari583) | [LinkedIn: hari-bashyal](https://linkedin.com/in/hari-bashyal)

PROFESSIONAL SUMMARY

Full Stack and Automation Developer with hands-on, production experience building web applications, news/content platforms, and n8n-powered automation systems for real clients. Skilled across React.js, Node.js, Express.js, and MySQL, with practical expertise in technical SEO and workflow automation. Holds a Bachelor's degree in Computer Science and Information Technology (First Division, Tribhuvan University). Comfortable owning a project end-to-end — from design and development through deployment — and experienced leading a small development team.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, PHP, SQL

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js, Laravel

Databases: MySQL, MySQL2

Automation: n8n workflow automation, AI-driven content pipelines, social media automation

Tools & Platforms: Git/GitHub, Visual Studio Code, Figma

Design: Adobe Photoshop, Adobe Illustrator, CorelDraw

SEO & Marketing: Technical SEO, Geo-targeting SEO, On-page SEO

Leadership: Team Leadership, Project Management, Task Scheduling, Workflow Planning

PROFESSIONAL EXPERIENCE

Full Stack & Automation Developer

Aug 2025 – Present

Dreams Media and Marketing — Kathmandu, Nepal

- Built CryptoCloudNews, a full-stack news portal, from scratch using React.js, Tailwind CSS, Node.js, MySQL2, and n8n automation.
- Designed and deployed an automated content-generation pipeline for news articles and blogs using n8n workflow automation.
- Built an automated social media posting system publishing content to Facebook, LinkedIn, and Twitter.
- Implemented comprehensive SEO — technical SEO, geo-targeting SEO, and on-page SEO — across multiple client platforms.
- Developed MicheAutoNepal, an e-commerce website with an integrated n8n-powered chatbot providing automated product details and customer support for bike and scooter inquiries.
- Currently leading development of the Baidhya Herbal e-commerce website, managing team schedules, task assignments, and project timelines.
- Managed the complete development lifecycle — from design to deployment — for multiple client projects.
- Completed a structured 6-month internal training program in Full Stack Development and Automation covering React, Node.js, Express.js, MySQL, and n8n.

Full Stack Development Intern

Feb 2025 – Jul 2025

Synthbit Group Pvt. Ltd. — Rupandehi, Nepal

- Designed and developed web applications using modern JavaScript frameworks, contributing to both frontend and backend.
- Built a Hospital Management System for appointment scheduling and patient-data management using React.js, Node.js, and Express.js.
- Implemented authentication with JWT and managed relational data with MySQL.

- Adhered to established coding standards and UI/UX design guidelines while contributing to web application enhancements.

KEY PROJECTS
